

Leading, Promoting, Advocating for Environmental Public Health Professionals in Ontario

The Longest Certified PHI

A review of the BOC Registry by Tim Roark the CIPHI National Historian has turned up an interesting fact. Lloyd Dodgson has held his CSI(C) or CPHI(C) longer than any other living person in Canada and thus the whole world. The BOC Registry which traces its start to 1934 shows that Lloyd received his certificate in 1938. This means Lloyd has been certified for 78 years. This is quite an achievement and one that the Ontario Branch News is proud to proclaim.

Lloyd Dodgson was born in January 1918 and has dedicated most of his life to health protection in one form or another. Lloyd like most young men of his time served in the Second World War. He served in the Hygiene Section and was in Italy and Germany.

After the war Lloyd worked as a public health inspector for the Toronto Department of Public Health until 1952 when he moved to the St. Catharines Lincoln Health Unit. In 1957 Lloyd moved to Stratford, Ontario and started work for the City of Stratford Health Department. Lloyd and his wife Muriel raised their three children in Stratford. Lloyd even helped establish the district health unit and became the first Director of the Perth District Health Unit. During those times Lloyd use to take his son with him on the job. Those on-the-job experiences influenced Dave to become a public health inspector as well.

Lloyd was a member for the CIPHI executive council for many years and was president of the Ontario Branch from 1965 to 1966. Lloyd's other achievements include being the Regional Consultant for the Ontario Department of Health from 1972 to 1973, obtaining a Bachelor of Arts degree from Waterloo Lutheran University in 1973, and for 10 years being the Environmental Health Coordinator of the Nursing Home Inspection Service section of the Ministry of Health until 1983.

When you ask what made him want to go to work, Lloyd will tell you: "Besides the absolute necessity of having to make income, I found the day ahead always promised something of interest."

Now retired at 98 years young, Lloyd currently lives in Richmond Hill and is interested in family and physical fitness. He is an active member of the public speaking group in his retirement home.

- Articles submitted should be approximately 150 words (feature articles a maximum of 500 words)
- Feature articles will be determined by the editorial team

Published semi-annually by the Canadian Institute of Public Health Inspectors — Ontario Branch Inc.

Message from the President

I want to start off by saying how incredibly impressed I am with all the hard work and dedication that the Ontario Branch Executive has demonstrated since I became president in 2014. The countless hours of work that everybody puts in is greatly appreciated, especially since it is on a volunteer basis. I also want to thank all of the volunteers that belong to the different working groups, without you, a number of our initiatives and goals would never come to fruition. I would also like to thank all the health units that allow members to participate in CIPHI related activities as well as provide an environment where members can continue with their professional development and ultimately gain more skills and knowledge to help them succeed with their career.

This year has started off with quite a bang, as we continue to engage members more and are involved with many initiatives. Mandatory membership is now in effect for all those newly certified PHIs which ensures that they participate in a core competency program to allow them to not only maintain their current level of public health knowledge but also increase their knowledge as they grow. This initiative has been in the works for decades and is quite the milestone for CIPHI.

Already this year CIPHI is involved with building a new website, working with the MOHLTC surrounding the modernization of some regulations, working with the Ministry of Education surrounding the new Child Care and Early Years Act (CCEYA), developing some webinars in collaboration with PHO, working together with OPHA on responses to upcoming changes as suggested in the Patients First document, and the list goes on!

There is a lot of work being done and there is going to be even more work coming up as more and more projects seem to be popping up. I feel that CIPHI is a lot more involved with many more stakeholders than before and the CIPHI brand is really starting to shine as leaders in public health. The CIPHI Ontario Branch Annual Educational Conference is coming up in October and the organizing committee has already done a phenomenal job in securing speakers, exhibitors and sponsors. I encourage anyone that has not been to a conference before to attend Niagara, as it looks like it will be very informative and a great way to network with colleagues and friends from all over the province and country.

One of the vacancies that will be coming up in October is that of President-Elect. CIPHI is continuing to grow and there is a lot more engagement and opportunity. When I step down in October, I know that Raymond Ramdayal will be an excellent president as he has been very instrumental in many initiatives and is a great guy to work with. We will need somebody to step up as President-Elect to continue

what we've started and take on some new and exciting challenges. The President-Elect position is challenging and fun, along with a highly organized and functional executive that will help with this transition.

Please stay tuned for the new website and CIPHI will continue to provide updates and opportunities via the ListServ as well as the OBN.

Thank you,
Tony Makrostergios
CIPHI Ontario Branch President

Board of Certification Update

Student membership

Effective January 1st, 2016, the Board will require every applicant for BOC examination to be a current student CIPHI member. The objective of this initiative is to expose students to the rewards and benefits of membership in the hope that they will continue to be members for life.

BOC fees

Effective January 1, 2016 the examination fees will be increased from the current \$750 dollars to \$850 to reflect the increased costs of holding the exam.

Exam

This is the third October in a row where we were able to hold a one day BOC exam in Ontario. The October 2015 exam was also the largest one day exam involving 22 panels and 66 examiners. The one day exam ensures all students are measured using the same questions, as well as resulting in significant cost savings for the BOC (exam room, accommodations, mileage and meals).

2015 Examiners

In 2015 a total of 113 applicants applied to become a BOC Examiner. A total of 78 were selected to be examiners.

Some of the benefits of being an examiner are:

- Earning CIPHI Professional Development Hours
- Helping to keep knowledge current
- Advancing the profession
- Experiencing increased networking opportunities
- Enhance the student practicum program

To qualify as a BOC examiner in Ontario you must:

- be a current regular member of CIPHI,
- have at least 5 years certified experience
- submit an annual BOC Examiner Application

Continued on next page

On behalf of the Board of Certification I would like to extend my deepest thanks and appreciation all the participating members for their support during the Board of Certification exam process in 2015.

Norine Schofield
 Ontario Branch BOC Representative

Cultural Health Promotion

As health inspectors we all try and promote good health within our community. Another venue for promoting public health, especially to the South Asian community to whom English is a second language, is a local television show.

“Health Talk with Balbir” hosted by Balbir Sohi airs on SSTV Rogers Channel 851 or Bell Fibe Channel 823 on Sunday at 7:30 p.m. EST. Sur Sagar TV, also known as SSTV is a Canadian Category B Punjabi language specialty channel with select programming in English.

Videos of the show can also be found on Facebook, YouTube, and LinkedIn. Each show has various discussions on specific public health topics such as, food safety, infection prevention and control, children immunization, travel vaccination and overall health and well-being.”

Ms. Balbir Sohi along with public health inspector Ms. Henna Malhotra, promote the aspects of health and well-being in various languages including Punjabi, Hindi, Urdu and English to the members of the South Asian community. The show and videos are another source of health information which can be used by all to reach different cultures in our community.

 Henna Malhotra

Infectious Disease Working Group Update

As of March 2016 the membership includes the following individuals:

Heidi Pitfield – Simcoe Muskoka District HU
 Alicia Lowe-Downes – Toronto Public Health
 Tania Clarke – York Region Public Health
 Roxana Nassiri – Huron County Health Unit
 Christina Milani – Grey Bruce Health Unit
 Stephen Correia – Renfrew County HU (stepping down due to work issues)
 Laura Farell and David Ryding – Public Health Ontario

The latter part of 2015 saw significant working group membership changes. These changes created some difficulty in maintaining momentum for the following two initiatives identified in the 2015 work plan.

- 1) An advocacy letter to the Minister of Health was prepared, regarding two requests. First, revisions to the Infection Prevention and Control Best Practices for Personal Services Settings and second, the development of a Personal Services Settings Regulation under the Health Protection and Promotion Act.
- 2) A resource education video in the primary stages of development on Personal Services Settings. This was to be an educational resource for all PHIs. An educational tool was identified by CIPHI members through a needs assessment survey conducted by the working group in 2014/15.

In summary, project (1) was completed in draft form in June 2015 but later appeared unnecessary as there was some evidence to suggest that a working group facilitated by Public Health Ontario in collaboration with the Ministry of Health and Long Term Care were set to undertake revision of the Best Practice document.

Project (2) was re-discussed and the current working group came to the consensus that this was large undertaking given the current instability of the IDWG. The group discussed reviewing the current learning tool developed by Toronto Public Health over a decade ago and making some modifications with TPH’s endorsement and support. The IDWG will review how the tool would reach CIPHI members at a later date. It was agreed that this was a more manageable initiative and would meet the needs of members and not be greatly affected by the pending revision of the Best Practice document.

The following are the IDWG initiatives for 2016.

- To build membership capacity and stability for the IDWG
- Update the CIPHI – Personal Services Setting Fact sheets
- Four members will continue their advocacy and participation with the Personal Services Setting-Health Unit-Working Group (PSSHUWG). This group is revising the PSS Best Practice document. A preliminary document is anticipated by March 2016. This draft document will be circulated to all PHUs and stake holders for feedback.
 - An opportunity may exist for the IDWG to facilitate development of tools to support the new best practice document; ongoing assessment and discussion with the PSSPHUWG will continue.
- Review TPH’s PSS teaching tool for PHIs and have a draft for priority modules.

 Christina V. Milani, Acting Chairperson

Meet the Members of the Ontario Branch Executive Council (OBEC)

These are historic and defining times for our organization. For this reason, I am truly honoured to be entrusted as your current President-Elect and incoming President for CIPHI Ontario Branch later this year.

My past and current roles with the Executive Committee, both as President-Elect and Councillor of Professional Development, have provided me the opportunity to meet and engage with hundreds of talented and passionate environmental public health professionals from across this Province. They represent CIPHI's membership and are all committed to advancing their profession by delivering programs that ensure the safety and health protection and promotion of all Ontarians.

For those I have not had the pleasure of meeting, I wanted to take this opportunity to introduce myself. I currently work for Toronto Public Health as an Environmental Health Specialist within the Healthy Environments section. Before taking on this role, I spent 15 years working in both the Food Safety and Health Hazard programs.

My educational background is likely similar to yours having graduated from Ryerson and becoming certified in 1998. I'm a lifelong learner and after completing my Masters had the pleasure of returning to Ryerson to teach in The Chang School for Continuing Education.

The experience that I gained as a Public Health Inspector opened many doors for me. One of which is the privilege of being an appointed Adjudicator on several administrative tribunals for the Province. I have also held executive roles on other non-profit boards such as the Society of Ontario Adjudicators and Regulators.

My greatest passion is for volunteer work and directly interfacing with communities. This is why it has been such a joy to serve on CIPHI and work side-by-side with other volunteers who so generously give their time.

When I'm not working, my time is spent with my beautiful wife Shameena, and our three children, Zacharia, Soriya and Elijah, all of whom inspire me to do good things in this world. I'm indebted to them, as well as my employer, for supporting my work with CIPHI.

My hope is to represent the profession well and serve the membership at large. I look forward to being your ambassador and to profile the important work we do collectively as public health professionals. The future is bright and it is an exciting time to be involved in our profession. Together, we can take CIPHI (ON Br) to a level it has never been before.

With sincere appreciation,
Raymond Ramdayal

Food Safety Working Group Update

The Food Safety Working Group has been steadily building a keen presence within the Province over the last year, providing feedback and review to numerous documents and initiatives. With a team of five members, the FSWG shared thoughts and insight on the review of O. Reg. 562 *Food Premises Regulation*, Bill 45 – *Making Healthier Choices Act*, and other current food safety initiatives. Presently, the FSWG is aiding the Central East Student Nutrition Program in crafting documents that will make transport of food to a new salad bar program in schools (sponsored by Farm to Cafeteria Canada and Sustain Ontario) a safe endeavour. This new salad bar program was reviewed by the FSWG, and feedback was given to the Ontario Edible Education Network, who is working in partnership with Farm to Cafeteria Canada and Sustain Ontario on this initiative.

Michelle Martin continued her work with the Guelph Food Safety Seminars, helping stage their symposium "Microbes, Memories, and Mansel: A Symposium in Honour of Professor Mansel Griffiths" on October 21, 2015. In November, Michelle hosted Ken Diplock, CPHI© and Dr. Shannon Majowicz as they presented a seminar for the GFSS on "Food Safety Education Needs of Ontario High School Students" on behalf of CIPHI. This particular seminar was very well received, having excellent attendance via webinar for those who couldn't join us at the University of Guelph.

Clothilde Howieson is CIPHI's rep on two committees: the Food Outbreak & Recall Committee (formerly known as Ontario Multi-Agency Food Outbreak/Food Recall Working Group), and the Interagency Council on Food Safety. Ms. Howieson replaces Jessica Morris as CIPHI's rep on the latter committee, after Jessica accepted a position as Food Safety Manager at the Wellington Dufferin Guelph Public Health Unit. The FSWG thanks Jessica for her work over the last few years, and wishes her success in her new endeavor.

With more requests for review and feedback coming to the FSWG, a call was placed for 2 – 3 more members in the late winter of 2016. An excellent pool of applicants was received, and the names of the successful candidates will be announced in the early spring. Until then, we remain:

- Michelle Martin – Durham Region Health Department
- Danny Martin – Peel Public Health
- Steven Rebellato – Simcoe Muskoka District Health Unit
- Clothilde Howieson – Eastern Ontario Health Unit
- Theresa Warren – Lambton Public Health

Michelle Martin, FSWG Chair

CIPHI Ontario Curling Bonspiel

This year the annual CIPHI Curling Bonspiel was hosted by Peel Public Health. 24 teams from across Ontario participated in the annual challenge which was held at the Chinguacousy Park Curling Club in Brampton.

L-R: Andrew Moulton, Bob Moulton, Dar Malavariachichi and Robert Moulton of Team Eight Enders from Sudbury were the bonspiel winners.

Second place went to Norine, Alicia and the Toy Boys (L-R: Glen Hudgin, Norine Schofield, Bruce Kemball and Alicia Lowe).

Always gracious in defeat the Family Stone from Peel won the coveted Golden Toilet Award for finishing in last place.

(L-R: Alex Clemens, Jelena Grmusa, Ivana Grmusa and Kurt Clemens)

Several prizes were raffled off Saturday night after the curling. The lucky winners were Jelena Grmusa who won a full registration to the 2016 CIPHI Ontario Annual Educational Conference in Niagara Falls.

Ken Gorman from Durham won a Samsung Tab 3 Lite

Christina Milani from Grey Bruce won a Fitbit Flex.

and Jeanine Middleton from Sudbury won tickets to a Raptors game.

Congratulations to all the winners both on and off the ice and a big Thank You to all the staff of the Peel Public Health who helped out behind the scenes putting on a great curling bonspiel. Your assistance is truly appreciated.

Lastly, Eastern Ontario Health Unit has graciously offered to host the 2017 CIPHI Ontario Curling Bonspiel. We look forward to seeing everyone in Cornwall. Grab a slider (it's not a burger) and join the fun.

CIPHI Ontario Curling Bonspiel

Over 100 health inspectors gathered in Peel Region to enjoy a winter tradition, curling.

It all began Friday night at the popular Jakes Boathouse in Brampton. Teams enjoyed traditional festivities, food treats and lots of refreshments. Our host hotel The Marriott was just walking distance away from the pub so no one could get into trouble on the road.

The first draw hit the ice at an early 7:45 a.m. with the second draw following shortly thereafter at 9:45 a.m. Both draws were welcomed to the arena by Peter the Piper. Team skips met at centre ice to enjoy a dram of Scotland's finest. This traditional highland toast provides a start to each draw. Both draws started on time and proceeded without a hitch. There were a few controversial calls that needed a decision from our referee Jacques Beauvais.

Everyone enjoyed a great lunch of wraps, sandwiches, soup and desserts. The prize table was set up so that all curlers could view the prizes. The scores were posted on the TV, as the day progressed. Raffle tickets were also sold for the great prizes as shown in the photos. Prizes were donated by Hedgerow Software and winners were drawn by Fran Gelder.

Dinner was a catered event with steak, chicken, vegetables and a celebratory 2016 curling cake for dessert. At the end all curlers received a gift from the prize table.

Finances are still being tabulated but there will be enough to make a donation to the United Way and to the Environmental Health Foundation of Canada (the charitable arm of CIPHI).

In addition, some seed money will be forwarded to Eastern Ontario Health Unit to assist in organizing next year's bonspiel which will be held in Cornwall.

The 2016 Peel Organizing Committee

CIPHI Ontario Slo-Pitch

The Region of Waterloo Public Health has graciously offered to host the CIPHI 2016 Slo-Pitch tournament this summer. Look forward to pictures and a rundown of the event in the fall OBN. If you have any questions or would like to help volunteer, please contact Michelle Ngo at MNgo@regionofwaterloo.ca

Congratulations:

Kate, Andrew and big sister Eleanor Beath are happy to announce the safe arrival of the newest member to their family. Fergus Henry Archer Beath was born March 13th at 6:50pm and weighed in at 8lbs 2oz.

Retirements

Retirement only means it's time for a new adventure. With that said, 2 PHIs have decided to start a new chapter in their lives.

Dave Young is retiring at the end of April after 42 and 1/2 years. Dave has been a familiar face at the CIPHI curling bonspiels and has been at every baseball tournament since 1976. Dave is the director with the Region of Waterloo Public Health.

Wally Adams has been a PHI for over 30 years. Almost all of that time has been with the London Middlesex Health Unit. Wally will be retiring at the end of June.

Good luck gentlemen and thank you for all your years of service.
