CIPHI National Virtual Education Series

CALL FOR ABSTRACTS

The Canadian Institute of Public Health Inspectors Education Committee is seeking presentations that support our endeavor to provide education sessions to our members. As part of the Centre of Professional Excellence (CoPE) requirements for professional development hours, we strive to provide our members with education in the professional competencies for environmental public health professionals. We offer monthly education sessions for members to grow, learn, and connect with others.

The call for Abstracts is now open and can encompass technical presentations, ongoing research and initiatives, and skill building opportunities. Environmental public health is the cornerstone of safe and thriving communities. Abstracts are welcomed from all public health partners and industry professionals.

Submission deadline is the last Friday of each month.

Selected speakers will be contacted by email and given 3 weeks of notice of an intended session date.

For more information, email Education@ciphi.ca
